

# BACHELOR OF BUILDING DESIGN MANAGEMENT (3727)

**Approved Abbreviation:** BBldgDesMgt  
**Western Sydney University Program Code:** 3727  
**AQF Level:** 7

CRICOS Code: 088711G

This program applies to students who commenced in 2021 or later.

Students should follow the program structure for the session start date relevant to the year they commenced.

For commencement year 2020, please refer to: 3727.2 Bachelor of Building Design Management (<http://handbook.westernsydney.edu.au/hbook/course.aspx?course=3727.2>)

For commencement year 2016, please refer to: 3727.1 Bachelor of Building Design Management (<http://handbook.westernsydney.edu.au/hbook/course.aspx?course=3727.1>)

Over four years, this program develops the skills necessary for a role in the integrated design and delivery of building projects. All aspects of building design are included: from initial design concept, extending to design brief formation, project documentation, quality control management during the building process and project handover. Students will develop an understanding of 'buildability' issues, accurate cost forecasting, risk management and sustainable project delivery. Students will also develop skills needed to work in a multi-disciplinary project team and negotiate favourable outcomes in complex project environments through simulations of real-life building projects and approved practical experiences.

There is an embedded honours stream in this program in the 4th year. Students are invited to enrol into the honours stream after consideration of certain criteria - such as GPA and overall marks in the first three years - with the opportunity to graduate with honours listed on their testamur.

## Study Mode

Four years full-time or eight years part-time.
