The Master of Child and Family Health (Karitane) aims to provide Registered Nurses and Registered Midwives with theoretical knowledge and associated skills that prepare them to work autonomously and across a variety of clinical settings with children and families. Graduates will be able to apply advanced practice, concepts and analysis and lead practice to promote optimal health outcomes for children and families. This will involve among other things, design, implementation and evaluation of advanced clinical care systems, analysis and synthesis of concepts leading to a basis for advanced practice and the facilitation of change. Opportunities will be provided for students to undertake in-depth study into aspects of child and family health relevant to their specific areas of practice.
