

# MASTER OF FORENSIC SCIENCE (3741)

**Approved Abbreviation:** MForSc

**Western Sydney University Program Code:** 3741

**AQF Level:** 9

This program applies to students who commenced in University of Florida, Term 3 2021 or later.

Students should follow the program structure for the session start date relevant to the year they commenced.

Commencement Year 2017 - 3741.1 Master of Forensic Science (<http://handbook.westernsydney.edu.au/hbook/course.aspx?course=3741.1>)

The program is designed for applicants who need advanced level knowledge across a range of forensic disciplines including crime scene investigation, fingerprint detection and identification, forensic chemistry, forensic biology, forensic toxicology, illicit drug analysis, and forensic medicine. The fully-online nature of the subjects and the flexibility available with subject selection means that the program can be adapted to suit applicants working or intending to work in areas that include forensic science laboratories, toxicology and pathology laboratories, drug assessment agencies, customs and border protection, law enforcement, and areas related to national security. The Master of Forensic Science includes two compulsory research subjects.

- This program is part of a collaborative education partnership with the University of Florida and the University of Canberra.
