The Academic Integrity Module (AIM) introduces students to the
importance of studying with integrity at Western and the value of
integrity in professional life. Students completing the AIM commit
to the values of Western's Student Honour Code, developed in
partnership with students. The AIM outlines requirements and
expectations regarding ethical academic behaviour including use
and acknowledgement of sources and presenting your own work in
assessments. It also introduces key academic integrity concepts
in the Student Misconduct Rule that all students need to be aware
of, including academic misconduct, plagiarism, contract cheating
and collusion. Students who complete the AIM feel more confident
in approaching their studies with integrity and identifying potential
risks to their academic integrity. Satisfactory completion of the AIM is
mandatory for all commencing students. Once completed, students will
be able to register for subsequent teaching sessions.
