

# ECON 1013 THE AUSTRALIAN MACROECONOMY

**Credit Points** 10

**Legacy Code** 200549

**Coordinator** Andrew Marks ([https://directory.westernsydney.edu.au/search/name/Andrew Marks/](https://directory.westernsydney.edu.au/search/name/Andrew%20Marks/))

**Description** This unit is an introduction to macroeconomic concepts, analysis and issues in the Australian context. Basic concepts introduced and applied include: national income accounting, economic structure, price indexes and inflation, the balance of payments, and labour market aggregates. These concepts are applied in describing and explaining the recent evolution of the Australian economy in terms of growth, structural change, price stability, and employment. This leads to a discussion of major policy issues such as the role of governments in managing economic fluctuations, and the implications of Australia's foreign liabilities. The course ends with a brief introduction to modelling income determination.

**School** Business

**Discipline** Econometrics

**Student Contribution Band** HECS Band 4 10cp

Check your HECS Band contribution amount via the Fees ([https://www.westernsydney.edu.au/currentstudents/current\\_students/fees/](https://www.westernsydney.edu.au/currentstudents/current_students/fees/)) page.

**Level** Undergraduate Level 1 subject

**Equivalent Subjects** ECON 1008 - Macroeconomics

**Assumed Knowledge**

HSC Mathematics.

## Learning Outcomes

On successful completion of this subject, students should be able to:

1. Define, understand and employ standard macroeconomic concepts to describe actual economies;
2. Describe the macroeconomic features of the Australian economy and their recent evolution;
3. Find, present, manipulate and interpret time-series data on important macroeconomic variables;
4. Identify the main instruments of government policy and explain their effects;
5. Discuss alternative views about macroeconomic policy;
6. Use simple models to make qualitative predictions on the likely macroeconomic effects of policy changes and external shocks.

## Subject Content

- structural change and Global integration of The Australian economy
- The labour market, employment and unemployment in Australia
- national income accounting
- Measuring economic aggregates: income Expenditure model
