

LAWS 7026 INTERNATIONAL SPACE LAW - COMMERCIAL ASPECTS

Credit Points 10

Legacy Code 200963

Coordinator Steven Freeland ([https://directory.westernsydney.edu.au/search/name/Steven Freeland/](https://directory.westernsydney.edu.au/search/name/Steven%20Freeland/))

Description This unit examines the underlying legal principles that regulate the use, exploration and exploitation of space, and how International Law can and should be applied to the many different State and private commercial uses of outer space. It examines the existing international legal regime - the five United Nations Space Treaties and key Declarations of Principles related to space activities - as well as a number of domestic regulatory systems, including the Australian legal regime. The unit also concentrates on the (many) uses and proposed uses of space for which the legal framework may not be particularly well suited.
