

MATH 2014 VISUAL ANALYTICS

Credit Points 10

Legacy Code 301109

Coordinator Zhonglin Qu ([https://directory.westernsydney.edu.au/search/name/Zhonglin Qu/](https://directory.westernsydney.edu.au/search/name/Zhonglin%20Qu/))

Description This unit introduces the fundamentals and technologies of visual analytics to understand big data. It covers major concepts of information visualisation, human computer perception and methods for visual data analysis. Students will learn knowledge and skills for identifying suitable visual analytics techniques, methods and tools for handling various data sets and applications. The unit provides students with opportunities to explore novel research in visual analytics and visualisation.

Discipline Statistics

Student Contribution Band HECS Band 1 10cp

Check your HECS Band contribution amount via the Fees (https://www.westernsydney.edu.au/currentstudents/current_students/fees/) page.

Level Undergraduate Level 2 subject

Assumed Knowledge

Familiarity with computer software programs, such as Microsoft Office.

Assessment

The following table summarises the standard assessment tasks for this subject. Please note this is a guide only. Assessment tasks are regularly updated, where there is a difference your Learning Guide takes precedence.

Item	Length	Percent	Threshold	Individual/ Group Task
Practical: Tutorial Labs -10 marked sessions (2% each)	2 hours for each session	20	N	Individual
Applied Project: (Individual) The students are required to develop an effective visualisation for relational data using existing tools or software	20-25 hours	30	N	Individual

Applied Project:
(Group) The students are required to develop an effective visual analytics work for multi-dimensional data using existing tools or software.

Intra-session Exam: Closed book, multiple choice	1 hour	20	N	Individual
