

NURS 7013 CLINICAL SUPERVISION IN HEALTH CARE

Credit Points 10

Legacy Code 401139

Coordinator Robyn Bowcock ([https://directory.westernsydney.edu.au/search/name/Robyn Bowcock/](https://directory.westernsydney.edu.au/search/name/Robyn%20Bowcock/))

Description This subject aims to provide students with foundational knowledge related to clinical supervision. Clinical supervision is a supportive formal process which enables health care professionals to develop and improve practice, thus potentially improving outcomes for services and service users. Students will be able to differentiate between Clinical Supervision and other Clinical Support options. Students will explore various models and theories which underpin clinical supervision, and the principles of effective supervision, including legal, ethical and professional considerations. Students will be encouraged to develop skills in self-awareness and reflective practice and to apply these skills to enhance professional growth and outcomes for service users.

School Nursing & Midwifery

Discipline Nursing

Student Contribution Band HECS Band 1 10cp

Check your HECS Band contribution amount via the Fees (https://www.westernsydney.edu.au/currentstudents/current_students/fees/) page.

Level Postgraduate Coursework Level 7 subject

Restrictions

Students must be enrolled in a postgraduate program.

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Critically analyse models of Clinical Supervision.
2. Assess/Examine the differences between Clinical Supervision and other clinical support options.
3. Appraise the significance of ethical and legal principles, professional codes and standards to the practice of Clinical Supervision.
4. Critically analyse the role of Clinical Supervision in personal, professional and organisational development and the subsequent outcomes for people receiving health care.
5. Critically reflect on practice issues to demonstrate capacity for self-awareness and clinical problem-solving skills.

Subject Content
