

REHA 3019 OCCUPATION AND AGEING

Credit Points 10

Legacy Code 400176

Coordinator Ali Gebhardt ([https://directory.westernsydney.edu.au/search/name/Ali Gebhardt/](https://directory.westernsydney.edu.au/search/name/Ali%20Gebhardt/))

Description In this unit, students will examine the ageing process using the biopsychosocial model, and reflect on their own attitudes towards ageing, including how social stereotypes of older people must be challenged to promote a positive view of this stage of life. Students will gain knowledge about how occupational performance may be impacted due to ageing, including common conditions assessed and treated by occupational therapists. Students will use research evidence to prepare occupational therapy intervention plans that promote quality of life and maximum social participation for clients' and their families.

Discipline Occupational Therapy

Student Contribution Band HECS Band 2 10cp

Check your HECS Band contribution amount via the Fees (https://www.westernsydney.edu.au/currentstudents/current_students/fees/) page.

Level Undergraduate Level 3 subject

Pre-requisite(s) REHA 2006

Restrictions This is a specialty subject offered as a compulsory core subject of the occupational therapy program. It is profession specific, preparing students to practice as an occupational therapist and not relevant as an elective for non-occupational therapy students. Students must be enrolled in programs 4663 Bachelor of Health Science/ Masters of Occupational Therapy and 4664 Master of Occupational Therapy or 4711 Bachelor of Occupational Therapy or 4712 Bachelor of Occupational Therapy.

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Critically examine the process of ageing using the biopsychosocial model.
2. Reflect on and discuss social and personal values and beliefs that shape images of ageing in western society.
3. Examine the occupational performance areas impacted by the ageing process and discuss the changes older people and their families face in this stage of life.
4. Design an occupational therapy client intervention for older people and their families that promotes social participation using best available evidence.
5. Critically examine the community services and supports available for older people and their families to enhance well-being and quality of life.
6. Examine theories on death and dying and the philosophies of hospice and palliative care and apply these to an occupational therapy approach with clients who have reached the end of life.

Subject Content

- Biopsychosocial changes associated with ageing

- challenging social stereotypes of ageing and developing A positive Image of older people in our society
