Description Fields of Practice 1 introduces Social Work students to a range of skills and contexts of social work practice. The unit draws from the expertise of the Social Work team at Western Sydney University, engages with consumer educators and practitioners, and provides students with opportunities to practice their skills in our state of the art Skills Lab at Parramatta and Liverpool. The critical approach to the unit takes account of the diversity in social work in terms of the range of people, groups and communities with whom students will work.
