

INFORMATION SYSTEMS ANALYTICS, MAJOR (0166)

Western Sydney University Major Code: 0166

Previous Code: M3101.1

Available to students in other Western Sydney University

Programs: Yes, however the following restrictions apply.

This major is not available to students enrolled in in 3639 Bachelor of Information and Communications (<https://hbook.westernsydney.edu.au/archives/2022-2023/programs/bachelor-information-communications-technology/>) Technology, Technology, 3684 Bachelor of Information and Communications (<https://hbook.westernsydney.edu.au/archives/2022-2023/programs/bachelor-information-communications-technology-advanced/>) Technology (Advanced), Technology (Advanced), 3687 Bachelor of Information Systems (<https://hbook.westernsydney.edu.au/archives/2022-2023/programs/bachelor-information-systems/>) or 3688 Bachelor of Information Systems (<https://hbook.westernsydney.edu.au/archives/2022-2023/programs/bachelor-information-systems-advanced/>) Advanced.

By completing Information Systems Analytics major you will gain cutting edge skills that will give you knowledge in how to assess and analyse currently available business data, make sense of it and based on the analysis select the most optimum business strategy. To achieve this within this major you will also learn about the complexities of Information Systems implementations, the components that make up the information systems, types of information systems and their nature of interactions. Furthermore, this major will give you cutting edge knowledge in how to best understand the complex relationships between business requirements and specific Information System technologies.
