Design graduates who previously would have planned a career in graphic design, media or advertising companies now face a future where they will be required to continuously adapt and reapply their skills to changing work environments. This double degree brings together the existing Design program with studies that explore emerging creative industries and allows students who are interested in pursuing careers as designers to also engage with new paradigms of creative and cultural production, developing skills in entrepreneurship and working in collaborative projects with creative industries in Greater Western Sydney (GWS).

Students have the option to travel to Penrith campus for a portion of the Creative Industries component.
