# **JURIS DOCTOR (2826)**

Western Sydney University Program Code: 2826 AOF Level: 9

**CRICOS Code:** 0101997

This program applies to students who commenced in 2021 or later.

The Juris Doctor (JD) is a professional entry Masters degree that satisfies the academic degree requirements for admission to practice as an Australian lawyer. The Juris Doctor commences with an intensive subject that is tailored to inducting both domestic and international students to the Australian Legal System, the University and School of Law, and the wider legal community. Students will engage in collaborative face to face problem and case-based learning experiences, will be supported by online learning materials, and will participate in authentic assessment to develop knowledge and skills. The Juris Doctor provides advanced and integrated knowledge of the principal areas of legal practice, legal concepts, and broader perspectives about the law. It develops advanced professional skills in problem-solving, critical thinking, research, communication, collaboration and self-management, and ethical and professional awareness and judgement. The Juris Doctor gives students the flexibility to choose from a wide range of additional specialist subjects which includes the opportunity to study overseas. The program will provide students with a dedicated physical space to study and interact in academic and non-academic pursuits. The Juris Doctor is available to both domestic and international graduate students who are looking for a highly regarded law qualification with a strong focus on student employability across diverse careers in law and beyond. Students will have opportunities to enhance their employability profile and knowledge of the legal industry, including with the professional units which have a strong focus on clinical legal engagements with a diverse range of industry partners. Students will also engage in legal research projects which includes the option for tailored support for students considering future enrolment into a PhD program.
