

MASTER OF AGEING, WELLBEING AND SUSTAINABILITY (4781)

Western Sydney University Program Code: 4781

AQF Level: 9

This program applies to students who commenced in 2021 or later.

The Master of Ageing, Wellbeing and Sustainability program is designed to prepare practitioners and professionals involved in the planning and provision of services to aged communities to become a change agent in transforming a society that recognises older people as active contributors for the betterment of themselves and their communities.

With the aim to facilitate a sustainable milieu for individuals to age successfully, this program adopts a strength-based approach in addressing real-life challenges related to health and wellbeing, housing, transportation, use of technology, civic participation, cultural diversity and social inclusion.

This online program offers great flexibilities and a wide range of choices in study options that help graduates to meet their own learning needs, achieve desired career development goals or further pursue research interests. Graduates will be able to apply a comprehensive and integrated understanding of ageing in place to deliver outcomes and improve practices for an inclusive, sustainable and age-friendly future.
