

MASTER OF BUSHFIRE PROTECTION (3708)

Approved Abbreviation: MBushfireProt
Western Sydney University Program Code: 3708
AQF Level: 9

This program applies to students who commenced in 2022 or later.

Students should follow the program structure for the session start date relevant to the year they commenced.

For Commencement Year Summer A 2017/ 2018, please refer to: 3708.3 Master of Bushfire Protection (<http://handbook.westernsydney.edu.au/hbook/course.aspx?course=3708.3>)

For Commencement Year 2016 - please refer to 3708.2 Master of Bushfire Protection (<http://handbook.westernsydney.edu.au/hbook/course.aspx?course=3708.2>)

The Master of Bushfire Protection is a three-year part-time program which provides students with a comprehensive understanding of bushfire behaviour in relation to local vegetation, topography, land management and weather conditions. Students will be able to conduct bushfire assessments, provide advice on developments in bushfire prone areas, assess building designs against both the accepted and performance requirements of planning provisions, building code and standards.

The program has been designed primarily for External delivery. However, two subjects have a compulsory workshop that students are required to attend. Students are encouraged to attend online workshops to gain the benefit of interaction with their peers.

Early Exits

Students may exit this program on completion of 40 credit points with a 3794 Graduate Certificate in Bushfire Protection (<https://hbook.westernsydney.edu.au/archives/2022-2023/programs/graduate-certificate-bushfire-protection/>) or on completion of 80 credit points with a 3793 Graduate Diploma in Bushfire Protection (<https://hbook.westernsydney.edu.au/archives/2022-2023/programs/graduate-diploma-bushfire-protection/>)

Study Mode

Three years part-time. Students can fast-track by completing additional subjects per semester to complete the program earlier.

Accreditation

The program is recognised by Fire Protection Association Australia as a qualification for accreditation under the Bushfire Planning and Design Scheme.

Admission

There are three entry pathways into the Master of Bushfire Protection.

Students are categorised into three Pathways based on their previous study background and work experience as indicated below and program sequence and length is set accordingly.

Pathway A

Applicants must have successfully completed an undergraduate degree or higher in land surveying, building, building surveying, construction management, planning, urban studies, quantity surveying, architecture, landscape architecture, science, environmental studies, natural resource management, emergency management, land-use planning, local government, property development or public sector management, **and** at least two years of related work experience

Pathway B

Applicants must have successfully completed an undergraduate degree or higher in planning, urban studies, environmental studies, natural resource management, urban and regional planning or property development, **and** at least two years relevant experience in planning (development control).

Pathway C

Applicants must have successfully completed an undergraduate degree or higher in building surveying, building or construction management, **and** at least two years relevant work experience in building surveying.

Applicants seeking admission on the basis of work experience must support their application with a Statement of Service for all work experience listed on the application.

Statement of Service form (https://www.westernsydney.edu.au/content/dam/digital/pdf/Statement_of_Service.PDF)

Applications from Australian and New Zealand citizens and holders of permanent resident visas must be made via the Universities Admissions Centre (UAC). Use the links below to apply via UAC or Western Sydney University. Applications made directly to Western Sydney do not have an application fee.

Applicants who have undertaken studies overseas may have to provide proof of proficiency in English. Local and International applicants who are applying through the Universities Admissions Centre (UAC) will find details of minimum English proficiency requirements and acceptable proof on the UAC website. Local applicants applying directly to the University should also use the information provided on the UAC website.

<http://www.uac.edu.au/>
<https://westernsydney.uac.edu.au/ws/>

Overseas qualifications must be deemed by the Australian Education International - National Office of Overseas Skills Recognition (AEI-NOOSR) to be equivalent to Australian qualifications in order to be considered by UAC and Western Sydney University.

Recommended Sequence

The program structure and sequence varies based on the student's previous study background and level, and work experience. See the Admission tab for more details.

Pathway A - Autumn intake

Qualification for this award requires the successful completion of 160 credit points as per the recommended sequence below.

Course	Title	Credit Points
Year 1		
Autumn session		
ARCH 7004	Planning and Development Control	10
BLDG 7007	Interpreting Building Regulations (Residential Buildings)	10
Credit Points		20
Spring session		
ENGR 7016	Planning for Bushfire Prone Areas	
Note: From Spring 2022 ENGR 7016 is replaced by ENGR 6002		10
ENGR 6002	Planning for Bushfire Prone Areas	
BLDG 7004	Building in Bushfire Prone Areas	10
Students may exit at this point with a Graduate Certificate in Bushfire Protection (40 credit points).		
Credit Points		20
Year 2		
1H session		
The following subject is not required for students intending to exit with the Graduate Diploma		
BLDG 7014	Construction Industry Practice A	20
Credit Points		20
Autumn session		
ENGR 6001	Bushfire Design and Climate Change	10
(Workshop attendance in this subject is required)		
PUBH 7007	Disaster and Emergency Management (PG)	10
(Workshop attendance in this subject is required)		
Credit Points		20
2H session		
The following subject is not required for students intending to exit with the Graduate Diploma		
BLDG 7015	Construction Industry Practice B	20
Credit Points		20
Spring session		
ENGR 7026	Performance Solutions for Bushfire Protection	10
BLDG 7008	Professional Practice and Building Law	10
Students may exit at this point with a Graduate Diploma in Bushfire Protection (80 credit points).		
Credit Points		20
Year 3		
Autumn session		
INFO 7010	Research Project A	20
Credit Points		20

Spring session

INFO 7011	Research Project B	20
Credit Points		20
Total Credit Points		160

Pathway B - Spring intake

Qualification for this award requires the successful completion of 160 credit points as per the recommended sequence below.

Course	Title	Credit Points
Year 1		
Spring session		
ENGR 7016	Planning for Bushfire Prone Areas	
Note: From Spring 2022 ENGR 7016 is replaced by ENGR 6002		10
