

# MASTER OF GLOBAL SECURITY AND JUSTICE (1923)

Western Sydney University Program Code: 1923  
AQF Level: 9

This program applies to students who commenced in Spring 2023 or later.

The Master of Global Security and Justice has a distinctive emphasis on human security and social justice imperatives. It is interdisciplinary and encompasses domestic and international issues ranging from transnational crime, cybercrime and security, comparative international policing, irregular migration and trafficking, to the exploration of human rights abuses perpetrated across a range of diverse domains. It will equip students with critical thinking and ethical problem-solving skills that will remain resilient to rapid change across different security and political situations. The critically oriented fundamentals of the program will run in tandem with practical and transferable workplace skills that can be tailored to potential graduate careers across various security as well as humanitarian organisations.

## Work Integrated Learning

Western Sydney University seeks to enhance student learning experiences by enabling students to engage in the culture, expectations and practices of their profession or discipline. This program includes a placement or other community-based unpaid practical experience.

There is an optional work component available in this program. Please contact the Program Advisor listed above for information.

International students should be aware that if an elective is a requirement of the program but the work itself was not registered with CRICOS, students can still complete these electives but it would be counted towards the work limitation. For more details, refer to the 'Work Integrated Learning (WIL) for international students' website.
