Learning Outcomes

On successful completion of this subject, students should be able to:

1. Illustrate the importance of innovation and entrepreneurship in an applied enterprise and organisational (firm/organisation) context;
2. Examine management approaches that foster innovativeness and entrepreneurship in a firm/ organisation, both from a large and small (SME) perspective;
3. Engage in the process of identifying entrepreneurial opportunities, particularly those based on innovation;
4. Undertake a feasibility study and develop a new venture plan for the commercialisation of new research ideas, whereby both innovation and entrepreneurship are referred to and adopted as the core aspects of the study;
5. Evaluate the impact of contemporary and emerging themes related to innovation and entrepreneurship, in particular themes that underline the long-term sustainability of a firm/organisation.

Subject Content

The innovation process:

- the mindset of the entrepreneur;
- new venture planning/creation;
- business feasibility planning; and
- emerging Issues that directly and indirectly impact innovation and entrepreneurial processes.

Some of the emerging issues include: the (increasingly) stronger links between entrepreneurship and sustainability in its various forms, such as business/financial, social and environmental; the emergence of new technologies that help support innovation/ entrepreneurship, new business concepts, and changes in legislation.
