Description This subject is designed to improve the English proficiency across the four macro skills (reading, writing, speaking and listening) of University Foundation Studies students who wish to progress to university studies. Students need preparation for both understanding the content of Foundation Studies and being able to participate fully in all subjects. Such preparation includes making clear the way English is used according to purpose, audience and subject. Moreover, students need to develop their confidence and competence in using the language in academic contexts. By raising the language awareness of students, they will be able to transfer the learning skills across the subject areas. The course also seeks to address the particular speaking needs of overseas students.
