

MEDI 4006 HONOURS PROJECT (MEDICINE)

Credit Points 0

Legacy Code 401172

Coordinator Phillipa Hay ([https://directory.westernsydney.edu.au/search/name/Phillipa Hay/](https://directory.westernsydney.edu.au/search/name/Phillipa%20Hay/))

Description Students who meet prerequisite requirements are offered an opportunity in this Subject to undertake enhanced research and scholarship activities while enrolled in the Bachelor of Medicine / Bachelor of Surgery (MBBS) 4641.5. A key objective is to assist students towards the independent application of knowledge and skills in the principles and methods of medical research on a specialist topic of their choice. With supervision, students will further develop their ability to critically evaluate theories and evidence in disciplines relevant to medicine, and to disseminate their work to a range of audiences. Prior to enrolment in the subject, students must have satisfactorily completed a Research Portfolio and given a 10 minute oral PowerPoint presentation summarising the research program and outcomes. The presentation is to be at a venue approved by the research supervisor and the supervisor must consider the presentation to be of a satisfactory standard.

Level Undergraduate Level 4 subject

Pre-requisite(s) MEDI 4002

Co-requisite(s) MEDI 4003

Restrictions Due to the GPA requirements for the Honours Award, this subject is restricted to students enrolled in 4641 MBBS who have achieved an overall program GPA ≥ 5.5 (combining grades from 400861 Foundations of Medicine 1, 400862 Foundations of Medicine 2, 400810 Integrated Clinical Rotations 1, 400811 Integrated Clinical Rotations 2 and 400977 Integrated Clinical Rotations 3) in order for the student to have a realistic expectation of achieving an Honours Award of Class II Division II. Students must be concurrently enrolled in subject 400978, Integrated Clinical Rotations 4 in Session 2H to be enrolled in the subject. Prior to enrolment in the Unit, students must have satisfactorily completed both the Seminar Presentation and Research Portfolio requirements. To obtain pre-approval, a structured research proposal, endorsed by a research supervisor, must be submitted to the School of Medicine Research and Higher Degrees Committee (RHDC) for review. The research proposal may be submitted to the RHDC any time between the completion of subject 400861, Foundations of Medicine 1 and before commencement of subject 400811, Integrated Clinical Rotations 2. Pre-approval must be obtained prior to collating evidence towards the Research Portfolio. The Research Portfolio will comprise written documentation and evidence of a pre-approved program of research, including a research supervisor endorsement stating that 200 hours was spent on the research.

Assumed Knowledge

MBBS Years 1 to 4 research methodology. Students will be expected to have applied knowledge and skills in designing and conducting research.

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Demonstrate academic writing skills required for writing peer reviewed journal publications
2. Independently identify and seek to address own learning needs for the planning and completion of a defined program of research
3. Seek, critically appraise and apply best available evidence relevant to a defined program of research
4. Demonstrate research rigour by systematically formulating answerable research questions, selecting and implementing appropriate study designs to generate, support or refute a testable hypothesis
5. Demonstrate an understanding of all aspects of the research process, including appropriate data collection and data analysis methods, and the synthesis, appraisal and dissemination of research findings
6. Apply ethical principles, relevant guidelines and laws to the conduct of own research

Subject Content

There is no formal teaching for the Unit. The workload is self-managed, supported by regular meetings with research supervisor(s). The Unit requires submission of an Honours dissertation, a seminar presentation and a research portfolio, together with attainment of the minimum GPA. Students will be assisted individually by their supervisor(s) to develop and apply skills in critical analysis, evaluation and synthesis of their research findings with knowledge from relevant disciplines. Students will be assisted by their supervisor(s) to develop academic writing and oral presentation skills to an Honours standard.

Assessment

The following table summarises the standard assessment tasks for this subject. Please note this is a guide only. Assessment tasks are regularly updated, where there is a difference your Learning Guide takes precedence.

Type	Length	Percent	Threshold	Individual/Group Task
Thesis	5000 – 8000 words, may be less if submitted in the form of an approved journal manuscript	S/U	Y	Individual
Presentation	10 minute PowerPoint presentation followed by Question and Answer session	S/U	Y	Individual

Portfolio	Written documentation and evidence of completion of the pre-approved program of 200 hours of research	S/U	Y	Individual
