

# NURS 3007 CONTEMPORARY ISSUES IN CHILD AND ADOLESCENT HEALTH

**Credit Points** 10

**Legacy Code** 401196

**Coordinator** Peter Lewis ([https://directory.westernsydney.edu.au/search/name/Peter Lewis/](https://directory.westernsydney.edu.au/search/name/Peter%20Lewis/))

**Description** In Spring 2023, this subject replaced by NURS 5004 - Contemporary Issues in Child and Adolescent Health. This subject begins with a brief examination of socio-cultural theories of childhood and adolescence as a background for the critical analysis of current debates about the health and wellbeing of children and adolescents. Case studies will be used to explore contestable topics in child and youth health from an interdisciplinary perspective. The subject will address issues of child protection and parental responsibility in the mainstream community, Aboriginal and Torres Strait Islanders, and refugee health care settings. Knowledge gained in this subject will assist beginning practitioners in a variety of disciplines to take informed positions on topics relevant to child and adolescent health.

**School** Nursing & Midwifery

**Discipline** Nursing

**Student Contribution Band** HECS Band 1 10cp

Check your HECS Band contribution amount via the Fees ([https://www.westernsydney.edu.au/currentstudents/current\\_students/fees/](https://www.westernsydney.edu.au/currentstudents/current_students/fees/)) page.

**Level** Undergraduate Level 3 subject

**Restrictions**

Successful completion of 80 credit points.

## Learning Outcomes

On successful completion of this subject, students should be able to:

1. Discuss current socio-cultural meanings of childhood and adolescence.
2. Discuss the influence of context and culture on child and adolescent health.
3. Discuss and critically analyse why some public health initiatives are contestable.
4. Formulate and justify a personal position on current contestable topics in child and adolescent health.
5. Critically reflect on ethico-legal implications of public health policy as applied to children and adolescents.
6. Critically discuss how interagency collaboration is necessary for the effective promotion of child and adolescent health.
