

NURS 7022 ETHICS IN HEALTH RESEARCH

Credit Points 10

Legacy Code 400975

Coordinator Evan Atlantis ([https://directory.westernsydney.edu.au/search/name/Evan Atlantis/](https://directory.westernsydney.edu.au/search/name/Evan%20Atlantis/))

Description This subject equips students to explore ethical issues impacting on the conduct of research in the health setting. Students will critically explore ethical issues and their implications in health research, understand the process of gaining Human Research Ethics Approval for research, gain practical experience of developing an ethically sound research plan and application for human ethics approval.

School Nursing & Midwifery

Discipline Nursing, Not Elsewhere Classified.

Student Contribution Band HECS Band 1 10cp

Level Postgraduate Coursework Level 7 subject

Restrictions

Students must be enrolled in a postgraduate program.

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Identify ethical issues in health research related to dealing with human participants.
2. Describe ethical issues related to research conduct.
3. Demonstrate knowledge of the process for gaining approval to conduct research with human subjects.
4. Plan research demonstrating ethical conduct.
5. Develop an application for human ethics approval.
6. Demonstrate highly developed skills as a self-reliant learner to effectively communicate in groups and teams.

Subject Content

Human ethical issues - confidentiality, beneficence, veracity, non-maleficence
 Ethics in dealing with human participants
 Ethics in research conduct
 Strategies for dealing with ethical issues in human research
 Approval for research involving humans
