

PUBH 7013 HEALTH PROMOTION: A PRIMARY HEALTH CARE APPROACH

Credit Points 10

Legacy Code 400836

Coordinator Olayide Ogunsiji ([https://directory.westernsydney.edu.au/search/name/Olayide Ogunsiji/](https://directory.westernsydney.edu.au/search/name/Olayide%20Ogunsiji/))

Description An individual's personal characteristics and their family, social and community environments have complex interrelationship with their health and health behaviours. The challenge for health professionals is to understand this complexity and encourage the practice of health promotion within a primary health care framework so enabling people to achieve a sense of power and control over their lives. The subject explores the health of individuals and communities in the context of health promotion. Evidence-based health promotion strategies are examined using social health and ecological perspectives.

School Nursing & Midwifery

Discipline Health Promotion

Student Contribution Band HECS Band 2 10cp

Level Postgraduate Coursework Level 7 subject
