

AGRICULTURAL SCIENCE, TESTAMUR MAJOR (T164)

Western Sydney University Major Code: T164

Previous code: T123

Available to students in other Western Sydney University Programs: No.

NOTE: This Major Testamur replaces T123 - Agrifood, Testamur Major from Spring 2025.

With a rich legacy teaching generations of agricultural scientists our historic Hawkesbury campus is the place to embark on a journey to transform the future of agriculture. The Agricultural Science major equips students with knowledge and skills in plant and animal production grounded in ecological principles to address global challenges. Students will gain hands-on experience in soil science, biosecurity, protected cropping, and agricultural technology. Opportunities for specialisation in animal science, environmental science, zoology, health, or business will enhance students understanding of agriculture's role in a global context. Graduates are prepared for diverse careers in agritech, policymaking, research or teaching, driving innovation for a more resilient and sustainable world.
