

CARDIAC SONOGRAPHY, TESTAMUR MAJOR (T160)

Western Sydney University Major Code: T160

Only available to 4806 Master of Sonography students

The Cardiac Sonography Testamur major is an accredited graduate entry training program in cardiac sonography (echocardiography). It integrates online and on-campus learning activities with the students' workplace training in sonography practice. The workplace training will consist, at a minimum, of 21 hours a week for the duration of the program (equal to 2016 hours), which is the benchmark set to be considered eligible for accreditation with the Australian Sonographer Accreditation Registry. Students will develop theoretical, practical, and professional skills that are essential for the practice of cardiac sonography and for further professional development.
