

CELL AND MOLECULAR BIOLOGY, MAJOR (0167)

Western Sydney University Major Code: 0167

Previous Code: M4007.1

Available to students in other Western Sydney University programs?

No

New discoveries in cell and molecular biology can translate into viable products in emerging biotech industries. This major will equip business students with knowledge and skills in fundamental biology and chemistry, biochemistry and molecular biology which will assist them in turning new findings in cell and molecular biology into productive business ventures. As knowledge and technologies expand in this area, the ability to read, critique and evaluate emerging research will be an important asset.
