Bachelor of Health Science Diploma in Health Science/Bachelor of Health Science

Health Services Management plays a vital role in society in ensuring that investment in health is well spent, and that health services are effective, efficient and sustainable. It puts management studies in the distinctive context of the health sector to integrate clinical understanding, business management skills and knowledge of the health care system and policy development. Our Health Services Management graduates worked in quality improvement, project and resource management, and digital health. Our program offers 280 hours of Work Integrated Learning and is accredited by the Australasian College of Health Service Management. There is room for specialisations in particular areas of interest in health, informatics, human resource and occupational safety which aim to extend students interdisciplinary knowledge and skills and ensure a readiness for the health management workforce. The Health Services Management testamur major includes 280 hours of professional placement experience. - The Testamur Major is identified on a graduate's testamur as Bachelor of Health Science (Health Services Management),

Master of Health Science

This specialisation is designed for medical, nursing, allied health and other health professionals who require skills in contemporary management and their application in the health care setting. Particular emphasis is placed on critical and analytic skills in health service governance, financing, quality and safety, planning and evaluation, and health policy thus providing graduates with the ability to respond effectively to changes as they arise. Students in this specialisation can further focus their studies in areas relevant to health service managers, such as project management, aged care management, human resource management, and research and development.

Electives

Students must take at least one level 3 subject as an elective.

Most electives are 10 credit points. Students may wish to consider using elective choices to complete another health sciences field of study, such as:

Minors:

Health Informatics, Minor (https://hbook.westernsydney.edu.au/majors-minors/health-informatics-minor/)

Public Health, Minor (https://hbook.westernsydney.edu.au/majors-minors/public-health-minor/)

Equivalent Testamur Major Subjects

The subject listed below count towards completion of the testamur major for students who may have passed this subject in 2022 or earlier.

BUSM 2043 Project Management in Humanitarian and Development Studies, replaced by BUSM 3082 (https://hbook.westernsydney.edu.au/search/?P=BUSM%203082) Project Management in Humanitarian and Development Studies
