

# PUBLIC HEALTH NUTRITION, TESTAMUR MAJOR (T068)

Western Sydney University Major Code: T068

Previous Code: ST3079.1

## Available to students in other Western Sydney University

**Programs:** Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

This postgraduate major is designed for science graduates seeking to further their career in public health and health promotion; working in a variety of settings, such as local, state or national health organisations, non-government organisations, population health units, community health centres, and international aid agencies. Roles may include health promotion officer, research and evaluation officer, monitoring and surveillance officer, and health policy officer. This major builds an integrated understanding of relevant aspects of community and public health nutrition and its interrelation with other relevant disciplines. A capstone subject involving a public health nutrition research project allows students to integrate their knowledge and skills developed from the whole program and build on research skills that are scaffolded through the curriculum.
