

UBIQUITOUS COMPUTING, MINOR (0325)

Western Sydney University Minor Code: 0325

Available to students in other Western Sydney University

Programs: Yes. Check that your program has the available credit points required to complete the subjects in this field of study. Any requisite requirements must also be met. Consult your Program Advisor for further advice.

Ubiquitous Computing is the concept of using small internet connections and inexpensive computers to help with everyday functions in an automated fashion. This minor introduces and explores the challenges Ubiquitous Computing presents in systems design and engineering, systems modelling, and user interface design.

Location
