Communication graduates who previously would have planned a career in media, public relations, journalism or advertising companies now face a future where they will be required to continuously adapt and reapply their skills to changing work environments. This double degree brings together the existing Communication program with studies that explore emerging creative industries and allows students who are interested in pursuing communications careers, to also engage with new paradigms of creative and cultural production, developing skills in entrepreneurship and working in collaborative projects with creative industries in Greater Western Sydney (GWS).
