Bachelor of Psychology (Honours) is a four-year degree that equips students with a thorough grounding in the scientific discipline of psychology.

Take the first step to understand why we think, feel, and behave the way we do in personal, professional, and societal environments. Allow us to take you on a scientific discovery to understand individual abilities, attitudes and the beginnings of our personality and emotional states. You will develop knowledge and skills to understand and explain human behaviour and experience. You will have the option to include electives in your study program such as Digital Mental Health; Behaviour and Environment; Psychology, Crime and Law; and Positive Psychology.

Students have the opportunity to study minors in the areas such as health sciences, business, education and social sciences to add the knowledge and skills of other disciplines and to enhance career options and job-readiness.

After the first three years of the fundamentals of psychology you may progress to the 4th year Honours program to further enhance your knowledge and skills and prepare you for a range of work opportunities or pathways to postgraduate studies in research or in professional training programs towards registration as a generalist or clinical psychologist.

As a valued undergraduate student at Western, you will be eligible for early applications and interviews for our psychology postgraduate programs.

This degree is also available for graduate entry, please refer to the admission criteria for further information.

Students who do not meet the entry requirements for entry into fourth year, or who do not wish to continue to fourth year, must transfer to 1904 Bachelor of Psychological Science (exit only) (<https://hbook.westernsydney.edu.au/programs/bachelor-psychological-science-exit-only/#text>) to graduate.
