Approved Abbreviation: BSustAg&FdSec
Western Sydney University Program Code: 3726
AQF Level: 7

CRICOS Code: 089441F

This program applies to students who commenced in 2018 or later

Students should follow the program structure for the session start date relevant to the year they commenced.

For Commencement Year 2017 - please refer to 3726.2 - Bachelor of Sustainable Agriculture and Food Security (<http://handbook.westernsydney.edu.au/hbook/course.aspx?course=3726.2>)

For Commencement Year 2016 - please refer to 3726.2 - Bachelor of Sustainable Agriculture and Food Security (<http://handbook.westernsydney.edu.au/hbook/course.aspx?course=3726.2>)

Opportunities are rapidly emerging for entrepreneurs to lead a new food future. Immersed in an approach that integrates social, economic and environmental values, students will view plant and animal production from consumer contexts to explore personal and community perceptions about food sustainability. This innovative degree merges topics of agriculture, food and health to empower students to design solutions for international development, community education and the urban–rural interface. Throughout study, engagement with industry and community will inspire students to take action towards a more sustainable food future. The program includes disciplines of natural science, social science and business studies.

Study Mode

Three years full-time or six years part-time
