

# GRADUATE CERTIFICATE IN CHILD HEALTH (EXIT ONLY)

Western Sydney University Program Code: 4794

AQF Level: 8

This is an early exit degree only. Completing this program will provide students with a strong foundation in paediatrics across the varying age groups. It will give the students practical skills for the assessment and management of children in a primary care setting to support their daily practice and will provide students with the skill they need for effective communication with children and their families. Every aspect of the program is designed, developed and assessed by experienced academics and experts from Western Sydney University and the Sydney Children's Hospitals Network. Students will be provided with the opportunity to take part in extracurricular activities to help build skills and establish connections with the community.

## Study Mode

Six months full-time or one year part-time.
