

GRADUATE DIPLOMA IN ADVANCED GYNAECOLOGICAL SURGERY (4766)

Approved Abbreviation: GD (AGS)

Western Sydney University Program Code: 4766

Students should follow the program structure for the session start date relevant to the year they commenced.

This program is available to RANZCOG specialist trainees in Obstetrics & Gynaecology pursuing their interests in surgical gynaecology. The Graduate Diploma in Advanced Gynaecological Surgery aims to develop a theoretical framework which can be applied in a clinical setting to help assess, plan and perform gynaecological surgery. There is an emphasis on the principles of surgical techniques with respect to gynaecological anatomy, physiology and pathology. Students will analyse biostatistics relating to gynaecological surgery to assist in reviewing the clinical literature, cases and outcomes. This program is expected to take 1-year full time to complete. On completion of the Graduate Diploma in Advanced Gynaecological Surgery, students who meet the admission requirements for the Master of Surgery (Advanced Gynaecological Surgery) may apply for entry.

Director of Academic Program - Dr Paul Stoodley

4770 - Master of Surgery (Advanced Gynaecological Surgery) (<https://hbook.westernsydney.edu.au/programs/master-surgery-advanced-gynaecological-surgery/>)

Study Mode

One year full-time
