

MASTER OF SONOGRAPHY (4806)

This program applies to students who commenced in 2025 or later.

Students should follow the program structure for the session start date relevant to the year they commenced.

For commencement year 2020 - 2024, please refer to: 4751 - Master of Cardiac Sonography (<https://hbook.westernsydney.edu.au/programs/master-cardiac-sonography/>)

For commencement year 2018 - 2019, please refer to: 4751.1 - Master of Cardiac Sonography (<http://handbook.westernsydney.edu.au/hbook/course.aspx?course=4751.1>)

The Master of Sonography is an accredited graduate entry program which integrates online and on-campus learning activities with students' workplace sonography practice. It allows students to enhance their imaging related knowledge and skills, introduces them to tutoring junior sonography students, and enables them to develop the research proficiency that supports the advanced practice of specialised sonography.

Director of Academic Program - Dr Kate McBride

Early Exit

Students may exit this program on completion of 80 credit points with a 4743 Graduate Diploma in Cardiac Sonography (<https://hbook.westernsydney.edu.au/programs/graduate-diploma-cardiac-sonography/>)

Students may exit this program on completion of 80 credit points with a 4765 Graduate Diploma in Vascular Sonography (<https://hbook.westernsydney.edu.au/programs/graduate-diploma-vascular-sonography/>)

Students may exit this program on completion of 80 credit points with a 4802 Graduate Diploma in Obstetric and Gynaecological Sonography (<https://hbook.westernsydney.edu.au/programs/graduate-diploma-obstetric-gynecological-sonography/>)

Study Mode

Three years part-time

Program Advice

Dr Paul Stoodley (<https://directory.westernsydney.edu.au/search/email/medicine@westernsydney.edu.au>)

Prospective students should visit the following websites for general enquiries about this program.

Accreditation

This program is accredited with the Australian Sonographers Accreditation Registry. Students will be eligible to be registered as a student sonographer, and upon graduating will be eligible to be an accredited cardiac sonographer. Graduates may also be eligible for professional membership with appropriate professional associations.

Work Integrated Learning

Western Sydney University seeks to enhance student learning experiences by enabling students to engage in the culture, expectations and practices of their profession or discipline. This program includes a placement or other community-based unpaid practical experience.

There is a mandatory work component required for completion of this program. Please contact the Program Advisor listed above for information.

International students should also refer to the link below for more information and a link to the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS).

Work Integrated Learning (WIL) for international students (https://www.westernsydney.edu.au/currentstudents/current_students/services_and_facilities/international_student_support/working_in_australia/work_integrated_learning/)

Clinical training of a minimum three days in cardiac sonography each week (or 21 hours) is required for the duration of the program (as per entry requirements). This is necessary for program accreditation and will be made clear to all program applicants and reaffirmed when students are offered a conditional position in the program. Students are responsible for making these arrangements, which must be confirmed two weeks prior to the start of semester 1 year 1.

When students are offered a conditional position in the program, they will be sent a clinical practice verification form, which is to be returned as soon as possible, so that measures to verify the suitability of the clinical experience can commence. That is, upon receipt of the signed verification form, the program coordinator will review the form to confirm that the student will have access to appropriate and supervised clinical training.

Clinical supervisors (at the students' site) will be provided with numerous means of support. Initially, they will be contacted by the program coordinator to verify their support for the student. They will receive a clinical supervisors guide and instructional video. Information about the content of program units and assessment items will be provided at the start of each semester, and prior to practical assessments at the end of each semester.

Admission

Admission to the program requires applicants meet the following criteria:

1. Completed an undergraduate degree in natural and physical sciences or health. Applicants with an undergraduate degree in another discipline will be considered for admission if they can demonstrate greater than 12 months full-time work experience in medical imaging, which must be supported with a statement of service for all work experience listed;

Or

2. Completed a Graduate Diploma or equivalent in Sonography (either cardiac, obstetric and gynecological, or vascular) with a minimum GPA of 5.0

2. Sonography training position. Applicants must secure a minimum of three days a week training in sonography (either cardiac, obstetric and gynecological, or vascular). Written verification of training must be provided to the university two weeks prior to the commencement of the program.

3. New Zealand applicants only: successful and full completion of an MRTBNZ approved cultural competency (Maori) module two weeks prior to course commencement. MRTBNZ cultural competency (Maori)

Applications from Australian and New Zealand citizens and holders of permanent resident visas must be made via the Universities Admissions Centre (UAC). Use the links below to apply via UAC or Western Sydney University. Applications made directly to Western Sydney do not have an application fee.

Applicants who have undertaken studies overseas may have to provide proof of proficiency in English. Local and International applicants who are applying through the Universities Admissions Centre (UAC) will find details of minimum English proficiency requirements and acceptable proof on the UAC website. Local applicants applying directly to the University should also use the information provided on the UAC website.

<http://www.uac.edu.au/>
<https://westernsydney.uac.edu.au/ws/>

Overseas qualifications must be deemed by the Australian Education International - National Office of Overseas Skills Recognition (AEI-NOOSR) to be equivalent to Australian qualifications in order to be considered by UAC and Western Sydney University.

Applicants seeking admission on the basis of work experience must support their application with a Statement of Service for all work experience listed on the application.

Statement of Service (https://www.westernsydney.edu.au/content/dam/digital/pdf/Statement_of_Service.PDF)

One additional entry requirement applies to NZ students only: successful and full completion of an MRTBNZ approved cultural competency (Maori) module two weeks prior to course commencement.

MRTBNZ cultural competency (Maori) (<https://www.mrtboard.org.nz/pre-registration/overseas-trained-how-to-register/ttmra-2/>)

Additional Information

Applicants with the Graduate Diploma in Cardiac Sonography award from Western Sydney University:

- Will be granted Advanced Standing for the 80 credit points of Graduate Diploma subjects
- Students must complete RADI 7001 Advanced Principles and Practice of Sonography and HLTH 7008 Introduction to Biostatistics before commencing the RADI 7010 Research Project in Cardiac Sonography.

Applicants with cardiac sonography qualifications from universities other than Western Sydney University:

- May apply for recognition of prior learning (RPL) for up to 60 (50%) of the 120 credit points needed to successfully complete the program. RPL will be assessed on an individual basis.
- Students granted RPL of 60 credit points must complete RADI 6002 Research Foundations for Sonography and RADI 7025 - Applied Cardiac Sonography before undertaking RADI 7001 Advanced Principles and Practice of Sonography, HLTH 7008 Introduction to Biostatistics and the Research Project in Cardiac Sonography subjects.

Qualification for this award requires the successful completion of 120 credit points which include the subjects listed in the recommended sequence below.

Recommended sequence

Course	Title	Credit Points
Year 1		
Autumn session		
RADI 5001	Physics for Diagnostic Ultrasound	10
Select from chosen major Practice Subject 1		10
Credit Points		20
Spring session		
RADI 6001	Pathophysiology in Diagnostic Ultrasound	10
Select from chosen major Practice Subject 2		10
Credit Points		20
Year 2		
Autumn session		
RADI 6002	Research Foundations for Sonography	10
Select from chosen major Practice Subject 3		10
Credit Points		20
Spring session		
Select from chosen major Major Practice Subject 4		10
Select from chosen major Major Applied Subject		10
At this point, students may Early Exit with GD option of chosen Major		
Credit Points		20
Year 3		
Autumn session		
HLTH 7008	Introduction to Biostatistics	10
RADI 7001	Advanced Principles and Practice of Sonography	10
Credit Points		20
Spring session		
MEDI 7066	Medical Research Project (PG)	20
Credit Points		20
Total Credit Points		120

Majors

T160 - Cardiac Sonography, Testamur Major (<https://hbook.westernsydney.edu.au/majors-minors/cardiac-sonography-testamur-major/#text>)

T162 - Obstetric and Gynaecology Sonography, Major Testamur (<https://hbook.westernsydney.edu.au/majors-minors/obstetric-gynaecology-sonography-major-testamur/#text>)

T161 - Vascular Sonography, Testamur Major (<https://hbook.westernsydney.edu.au/majors-minors/vascular-sonography-testamur-major/#text>)
