

# BEHV 1009 LIVING, LEARNING AND WORKING ON THE WEB

**Credit Points** 10

**Legacy Code** 102502

**Coordinator** Benjamin Hanckel ([https://directory.westernsydney.edu.au/search/name/Benjamin Hanckel/](https://directory.westernsydney.edu.au/search/name/Benjamin%20Hanckel/))

**Description** This subject prepares students for living, learning and working in a digital society. We examine how the web mediates behaviour, communication and culture in contemporary times. Students learn by participating and enterprising in online spaces as part of a supportive learning community. This subject also provides an important opportunity for students to develop a professional online web presence and identity that is relevant for their university studies, employability and the future of work.

**School** Social Sciences

**Discipline** Behavioural Science

**Student Contribution Band** HECS Band 4 10cp

Check your fees via the Fees ([https://www.westernsydney.edu.au/currentstudents/current\\_students/fees/](https://www.westernsydney.edu.au/currentstudents/current_students/fees/)) page.

**Level** Undergraduate Level 1 subject

**Equivalent Subjects** HUMN 1064 Digital Identities

## Learning Outcomes

On successful completion of this subject, students should be able to:

1. Participate in online spaces with relevant communities and audiences
2. Interpret online behaviour, communication and participation using psychological and social theories
3. Identify ways in which the web shapes and influences everyday social practices
4. Curate a professional online web presence and identity
5. Design and produce digital content on contemporary social issues
6. Demonstrate an entrepreneurial approach to the dissemination and promotion of digital content

## Subject Content

1. The participatory web for learning communities
2. The self online in networked publics
3. Knowledge creation, user generated content and storytelling practices
4. Digital inequalities - human rights, inclusion and citizenship
5. Ethical issues - privacy, surveillance, and safety
6. Influencing on the web - social change and digital activism
7. Researching social life using the social web and digital technologies
8. Digital entrepreneurship
9. Social media, employability and the future of work
10. Life long learning and the future of knowledge production
