

BUSM 7045 INNOVATION THROUGH DIGITAL TECHNOLOGY

Credit Points 10

Legacy Code 200845

Coordinator Qiuyan Fan ([https://directory.westernsydney.edu.au/search/name/Qiuyan Fan/](https://directory.westernsydney.edu.au/search/name/Qiuyan%20Fan/))

Description Business innovation in the Digital Economy recognises that current economic development and leadership is based on digitisation of the global economy. This unit provides a framework for understanding management issues, business development and technology use and change in the areas of innovation and digital business. The unit introduces students to various digital technologies and applications that companies need to address for creating new business opportunities in the fast changing global business environment. Students will develop an appreciation of digital business as a form of organisational innovation and the importance of innovation in the digital economy. Students will learn to formulate a digital business strategy for an organisation and understand various issues involved in digital business innovation. Students will be exposed to the University's business and technology incubator environment.

School Business
