Description This subject consolidates the student's journey towards producing an extended creative work in Year 2 for the Masters Project. Students are guided in responding to writing exercises set by their tutor and are given feedback on their writing practice. They explore and experiment within different forms and genres, including genres of fiction (such as the short story, the novel, YA fiction and auto-fiction), non-fiction (including the personal essay, environmental writing, memoir and the art of criticism) and poetry (including experimental narrative). This subject progresses towards writing and workshoping a lengthier creative piece, which will form part of the student's final assessment.
