Description This subject introduces students to the principles of screen and sound media production with an emphasis on digital video, new media, and short film drama production. Students develop an awareness of screen language through critical reflection upon classic and contemporary cinemas as well as practical exercises. Through a series of specialised modules and workshops, students develop their knowledge and skills in media production including camera coverage, visual storytelling, genre, narrative, montage, and sound design and editing. The subject is complemented by technical training in camera, sound and editing software.
