# EART 7002 ADVANCED STATISTICAL HYDROLOGY

#### Credit Points 10

Legacy Code 301013

Coordinator Ataur Rahman (https://directory.westernsydney.edu.au/ search/name/Ataur Rahman/)

**Description** This subject covers at-site flood frequency analysis, regional flood frequency analysis, trend analysis of hydrological data, linear regression analysis and multivariate statistical techniques to solve advanced hydrological problems.

School Eng, Design & Built Env

Discipline Hydrology

Student Contribution Band HECS Band 2 10cp

Check your fees via the Fees (https://www.westernsydney.edu.au/ currentstudents/current\_students/fees/) page.

Level Postgraduate Coursework Level 7 subject

### Restrictions

Students must be enrolled in a postgraduate program

## **Learning Outcomes**

On successful completion of this subject, students should be able to:

- Apply at-site flood frequency analysis techniques to estimate design floods from recorded streamflow data.
- Apply regional flood frequency analysis techniques to estimate design floods when no recorded streamflow data is available.
- 3. Apply trend analysis to rainfall and streamflow time series data to check the stationarity of the data.
- 4. Apply linear regression analysis to develop prediction models to estimate streamflow and rainfall indices.
- 5. Apply multivariate statistical techniques to hydrological problems.
- 6. Evaluate current Australian codes and software to solve statistical hydrological problems.
- Critically evaluate current literature to benchmark recent problems and developments in statistical hydrology practice.
- 8. Design sustainable hydrology projects.

### Subject Content

- 1. At-site flood frequency analysis
- 2. Regional flood frequency analysis
- 3. Trend analysis of hydrological data

 Linear regression analysis as applied to hydrological problems
Multivariate statistical techniques as applied to hydrological problems

# Assessment

The following table summarises the standard assessment tasks for this subject. Please note this is a guide only. Assessment tasks are regularly updated, where there is a difference your Learning Guide takes precedence.

Туре	Length	Percent	Threshold	Individual/ Group Task	Mandatory
Intra- session Exam	1 hour	25	Ν	Individual	Ν
Report	5,000 words	30	Ν	Group	Ν
Final Exam	n 2 hours	45	Ν	Individual	Ν

**Teaching Periods** 

### **Spring (2025)** Parramatta City - Macquarie St

#### **On-site**
