

# ENGR 2018 PROFESSIONAL PRACTICE FOR ENGINEER ASSOCIATES (WSTC ASSOCD)

**Credit Points** 10

**Legacy Code** 700118

**Coordinator** Robert Paluzzano ([https://directory.westernsydney.edu.au/search/name/Robert Paluzzano/](https://directory.westernsydney.edu.au/search/name/Robert%20Paluzzano/))

**Description** This unit will provide the knowledge and skills to enable students to support the achievement of organisational goals through applying knowledge of environment and internal culture. The unit evaluates planning processes and goal setting to achieve superior performance and compares alternative approaches to motivation of work team members. Students will consider types of managerial communications and their associated communications channels in achieving best professional practice.

**School** Eng, Design & Built Env

**Student Contribution Band** HECS Band 2 10cp

Check your HECS Band contribution amount via the Fees ([https://www.westernsydney.edu.au/currentstudents/current\\_students/fees/](https://www.westernsydney.edu.au/currentstudents/current_students/fees/)) page.

**Level** Undergraduate Level 2 subject

**Pre-requisite(s)** ENGR 2009

**Restrictions** Students must be enrolled at Western Sydney University, The College in 7022 Associate Degree in Engineering.

## Learning Outcomes

On successful completion of this subject, students should be able to:

1. Effectively build, motivate and manage project team.
2. Apply managerial communication skills and establish effective communication channels to achieve best professional practice.
3. Make effective oral, written and visual communications.
4. Describe and promote sustainable engineering.
5. Manage occupational health and safety.

## Subject Content

This unit provides the engineering students in Australia with the tools and techniques that facilitate the application of the knowledge of engineering management in practical engineering work and study. The detailed contents are described as following

1. The engineering method
2. Learning to be an engineer
3. Managing occupational health and safety
4. Understanding communication
5. Enabling skills for engineers
6. Information skills
7. Problem-solving tools
8. Sustainable engineering
9. Ethics in engineering
10. Managing engineering projects
11. Developing risk management plan, knowledge management plan and quality plan
12. Communicating information
13. Planning your career

## Assessment

The following table summarises the standard assessment tasks for this subject. Please note this is a guide only. Assessment tasks are regularly updated, where there is a difference your Learning Guide takes precedence.

Item	Length	Percent	Threshold	Individual/Group Task
Essay	1,500-2,000 words	10	N	Individual
Report	2,000-3,000 words	20	N	Group
Online Quizzes	30 minutes each	30	N	Individual
10 weekly quizzes each worth 3%				
Final Exam – Open Book	2 hours	40	N	Individual
