

HLTH 0004 ORGANISATION FOR TERTIARY STUDY (WSTC)

Credit Points 5

Legacy Code 900089

Coordinator Dane Couter (<https://directory.westernsydney.edu.au/search/name/Dane+Couter/>)

Description This subject aims to familiarise students with some of the concepts and issues surrounding healthy living, particularly for young people in an environment far from parental support. It introduces students to academic skills and the expectations of learners in a tertiary environment while further developing their language skills. By the end of this subject, the goal is for students to have a better knowledge and understanding of how to improve their health, develop organisational skills and learn to manage their time. The subject also aims to develop their understanding of the effect of drug use on health and lifestyle. There will be a range of teaching and learning strategies used in this subject including working in groups. The aims of this subject are to develop an understanding of the concept of health and wellbeing; develop and maintain organisational skills for various areas of life; create a mindset and learn skills to manage time well.
