Level Postgraduate Coursework Level 7 subject

Restrictions

Students must have permission from subject Coordinator to enrol in this subject. Students must have GPA of 5.0 or above. Students must be enrolled in a postgraduate program.

Learning Outcomes

On successful completion of this subject, students should be able to:

1. Propose and investigate a topic area relevant to professional practice.
2. Critique peer-reviewed literature pertinent to the proposed topic and identify gaps in knowledge.
3. Design and Implement a relevant professional project.
4. Justify possible areas of inquiry for future research or development.

Subject Content

The design of this subject is flexible so that it can respond to the special needs of the student and their topic chosen for exploration. The learning activities and resources required will be individually negotiated between the student and their project supervisor. Unit content will include:

1. Project-based learning relevant to individual professional goals and available expertise within industry, academia or other relevant body.
2. Critical literature appraisal on topics relevant to the student's project
3. Project management skills
4. Report writing in the form of a scoping paper or research paper or industry project report.
