# HLTH 7023 ADVANCED SPORT AND EXERCISE SCIENCE

**Credit Points 20** 

Legacy Code 401414

**Coordinator** Simon Green (https://directory.westernsydney.edu.au/search/name/Simon Green/)

Description Please note, subject 401291.1 Advanced Sport and Exercise Science replaced by 401414.1 Advanced Sport and Exercise Science from 2020. This subject provides Bachelor of Research Studies/Masters of Research candidates with an interest in Sport & Exercise Science with an opportunity to further their knowledge and skill-sets in the field. Working closely with their assigned supervisor(s), students will prepare a work-plan to further enhance their theoretical knowledge through a combination of independent and guided-study. The subject will provide students with an opportunity to strengthen their knowledge and expertise in their selected field of Sport & Exercise Science. The subject is focused on the development of discipline-specific knowledge (theoretical and practical) to prepare students for their research thesis and future career in a Sport & Exercise Science related field.

School Health Sciences

Discipline Human Movement

Student Contribution Band HECS Band 4 20cp

Check your fees via the Fees (https://www.westernsydney.edu.au/currentstudents/current\_students/fees/) page.

Level Postgraduate Coursework Level 7 subject

#### Restrictions

Students must be enrolled in 8083 - Bachelor of Research Studies/ Masters of Research

### **Assumed Knowledge**

Students to have completed an undergraduate degree in Sport and Exercise Science or other closely related Health, Allied Health or Medical Science/Medicine undergraduate equivalent.

# **Learning Outcomes**

On successful completion of this subject, students should be able to:

- Plan, execute and evaluate two programs (learning contracts) of self-directed learning.
- Develop and demonstrate sound knowledge and understanding of theory and practice in a chosen topic in Sports and Exercise Science
- Critically review published research about a topic related to your Masters research project.
- 4. Develop and demonstrate sound scientific writing skills.
- Develop and demonstrate sound oral communication and presentation skills.

# **Subject Content**

1.Advanced theoretical content related to the candidates research interests.

- 2.Developing skill-sets pertaining to Sport & Exercise Science research and/or clinical practice.
- 3. Management of self-directed learning programs.
- 4. Interpretation and evaluation of research contributions.

# **Special Requirements**

Legislative pre-requisites

If you are involved in research work with human participants, you will need to consult with supervisors regarding any compulsory training or background checks that might be required.

## **Assessment**

The following table summarises the standard assessment tasks for this subject. Please note this is a guide only. Assessment tasks are regularly updated, where there is a difference your Learning Guide takes precedence.

Туре	Length	Percent	Threshold	Individual/ Group Task	•
Learning Contract	2 pages for each contract	10	Υ	Individual	Υ
Reflection	1 page for each contract	10	Υ	Individual	Υ
Presentation	or45 minutes	40	N	Individual	Υ
Report	4,000 - 5,000 words	40	N	Individual	Υ

#### **Prescribed Texts**

 None. Reading in these subjects will be given by the supervisors and will be recently published primary research and review articles.
These publications are available through the library website.

Teaching Periods

# **Autumn (2025)**

## Campbelltown

## On-site
