

LAWS 4009 TRANSACTIONAL LAW

Credit Points 10

Legacy Code 200758

Coordinator William Higgs ([https://directory.westernsydney.edu.au/search/name/William Higgs/](https://directory.westernsydney.edu.au/search/name/William%20Higgs/))

Description This subject is designed to equip students for professional practice by providing them with an understanding of what it means (and takes) to be and think like a transactional lawyer in practice and how to 'add value to the deal' and think like a deal lawyer. Students will also be introduced to a range of structured financing transactions including lending arrangements, securitisation (RMBS, CMBS and CDOs), straight vanilla bonds, convertible bonds, covered bonds, asset based financing, managed investment schemes and swaps and derivatives (ISDA). Students will then be introduced to the legal building blocks of those transactions, including the law relating to representations and warranties, covenants, guarantees, subordination, set-off, commingling, trusts, security interests and insolvency. Students will work in teams to analyse and dissect a range of structured financing transactions. Real-life examples from international and domestic practice are discussed.
