

TEAC 3005 CRITICAL LITERACIES

Credit Points 10

Legacy Code 102678

Coordinator Christine Jones Diaz (<https://directory.westernsydney.edu.au/search/name/Christine Jones Diaz/>)

Description This subject increases students' understanding of literacy as a dynamic, social and cultural practice. It explores the changing nature of literacy by globalisation, new technologies and the diversity of language/language dialects. Students will explore the importance of valuing children's culture, home language/dialect as an integral component to identity, particularly for bilingual and Aboriginal and Torres Strait Islander children. Issues of power and language are considered through social, cultural and critical theories surrounding diversity and difference, and how this shapes the decisions of educators to build the literacy capacities of all children. Students will learn about contemporary frameworks of literacy and language and draw on this knowledge to extend children's literacy learning. This subject is included in the Development Phase of the Bachelor of Education.
