

TEAC 7091 PRIMARY HEALTH AND PHYSICAL EDUCATION

Credit Points 10

Legacy Code 102072

Coordinator Yasmen Kurtulmus ([https://directory.westernsydney.edu.au/search/name/Yasmen Kurtulmus/](https://directory.westernsydney.edu.au/search/name/Yasmen%20Kurtulmus/))

Description This subject is designed to explore the content and pedagogies of Health and Physical Education (HPE) in the NSW primary curriculum. Students will develop an experiential understanding of the pedagogy of HPE. The knowledge and skills developed in the other subjects of study in the course can be applied in this subject and Professional Experience subjects. In this subject students will also continue to develop their research skills. This subject aims to develop teachers who demonstrate empathy with diverse groups of student learners and commitment to socially just schools and classrooms. This subject is included in the Development Phase of the Master of Teaching program.

Level Postgraduate Coursework Level 7 subject

Equivalent Subjects TEAC 7095 - Primary Personal Development Health and Physical Education

Restrictions

Students must be enrolled in 1663 or 1781 Master of Teaching (Primary).

Learning Outcomes

On successful completion of this subject, students should be able to:

- Apply the content and central concepts of the NSW primary curriculum (K-6) components of the Personal Development, Health and Physical Education (PDHPE) K - 10 Syllabus and support documents when designing instruction.
- Create a program of integrated learning experiences covering all Health and Physical Education strands using a range of relevant pedagogies, assessment and teaching strategies, based on the NSW primary curriculum (K-6) components of the Personal Development, Health and Physical Education (PDHPE) K - 10 Syllabus.
- Apply teaching strategies that are responsive to a diversity of student needs including differences in cultural and linguistic backgrounds.
- Identify the role of Health and Physical Education within the broader school curriculum, including the relationship between Health and Physical Education contents and Information and Communications Technology, numeracy and literacy.
- Identify through critical analysis appropriate teaching and learning resources (print and digital) that can be used to enhance students' understandings of health concepts.
- Examine the concept of "teacher as researcher" by critically reflecting on views of Health and Physical Education and the body as a social construction.
- Apply appropriate Health and Physical Education pedagogies to improve learning outcomes for primary education.

>
