

WELF 1014 INTRODUCTION TO YOUTH WORK: HISTORY, THEORIES & APPROACHES

Credit Points 10

Description This subject introduces learners to the theories and concepts of youth work from multiple perspectives. Discover the origins and development of youth work as a distinct profession, globally and in Australia. Gain an understanding of current youth work code of ethics, with a focus on social justice and human rights. The subject introduces varied approaches to understanding youth, exploring their depictions across time, space, and cultures.

Learning Outcomes

After successful completion of this subject, students will be able to:

1. Identify the ways in which diverse perspectives, such as biopsychosocial and developmental theories, anthropological approaches, sociocultural approaches, and Indigenous perspectives, understand youth development.
2. Describe the historical evolution of youth work as a distinct profession, both globally and within Australia.
3. Discuss the ethical principles that underpin effective youth work practice.
4. Apply critical thinking and decision-making skills for effective engagement with young people.

Subject Content

- Social constructions of young people.
- Different approaches to understanding young people within youth work (such as biopsychosocial and developmental theories, anthropological approaches, sociocultural approaches, and Indigenised perspectives on youth development)
- Definition and history of youth work as a profession in Australia and globally.
- Ethics and code of practice of youth work.
